RE: Training Request

I would like to send Officer Slaughter to the NYS Division of Criminal Justice Services “**Advanced Crash Management**” course. The Advanced Crash Management course trains accident investigators to become proficient in the analysis and interpretation of crash data. The training includes lecture and project work dealing with damage analysis, thrust diagramming, pre- and post-impact speed determinations and, time position analysis. Students will be issued drawing supplies and a calculator for the courses. This is the third in a series of four Crash Management classes. The course will be held in Westchester County from March 16th - 20th. There is no fee for the course.
