

IMPORTANT NOTICE
WALTON LAKE ESTATES
WATER DISTRICT CUSTOMERS

MANDATORY WATER RESTRICTIONS

Due to emergency conditions resulting in reduced capacity, the Town is prohibiting the use of all outside water for sprinklers, pools, car washing, garden watering, etc., until further notice. The excessive use of water will place a burden on the current water supply. To ensure that sufficient water is available, we are forced to impose these restrictions. Be assured that the Town is taking steps necessary to ensure a continued supply of water for all the residents in your water district.
