

RECEIVED

JUN 01 2026

TOWN CLERK  
CHESTER, NEW YORK

Good Afternoon,

Please accept this letter as formal notice that Crisdel Group, Inc., on behalf of the New York State Department of Transportation (NYSDOT), is scheduled to begin construction activities associated with NYSDOT Contract D265676 – Route 17M Preventive Maintenance Project within the Towns and Villages of Goshen, Chester, and Monroe, New York.

Construction is presently anticipated to begin on or about Monday, June 8, 2026, weather permitting and subject to field conditions.

The work generally consists of roadway preventive maintenance operations along NYS Route 17M, including milling and paving operations, pavement repairs, utility structure adjustments, pavement markings, drainage structure repairs, ADA ramp replacements, and related traffic control activities.

During active operations, motorists may encounter temporary lane closures, alternating one-way traffic, construction vehicles entering and exiting the work zone, and intermittent traffic delays in accordance with NYSDOT approved maintenance and protection of traffic requirements.

Crisdel Group will coordinate operations to minimize disruption to local traffic to the greatest extent practicable. Emergency access for police, fire, EMS, and school transportation will be maintained throughout the work. We will continue to coordinate as needed regarding any major traffic impacts or operations requiring advance municipal notice.

If your office has any questions or if there are any known municipal events, emergency access concerns, road closures, or other local coordination items we should be aware of, please feel free to contact me directly.

Thank you for your cooperation.

Respectfully,  
Matt Spencer
